EDUCATION

Ph.D

2017-present

Fudan University

I am a third year Ph.D student in the Department of Computer Science. I am working in the area of computer vision, machine learning and deep learning. At present, I devote to the research of adversarial attack, generative adversarial networks, person re-identification, face recognition, attribute classification with deep learning.

BSc.

2013-2017

Northwestern Polytechnical University

During my undergraduate study, my major is Computer Science and Technology. On the one hand, I studied assiduously, and achieved outstanding results. On the another hand, I extended my knowledge actively, participated in the ACM contests, Mathematical Modeling Contests and National University Student Innovation Project.

PROJECT EXPERIENCE

Facial Expression Recognition Under Few-shot Setting

2018.9-2019.6

Ping An OneConnect and Fudan University

This project is aimed at recognizing subtle facial expression in the nsufficient training data condition. I am primarily responsible for algorithm study.

TEACHING ASSISTANT

Fudan University, Information System Security

2018.9-2019.2

SKILLS

Languages CHINESE, ENGLISH

Software LINUX, MATLAB, C, PYTHON, CAFFE, PYTORCH, TENSORFLOW
